

Call for applications for Short Term Scientific Missions

March 2019 – STSM2 Round 5

COST ACTION CA16222

WISE-ACT

Wider Impacts and Scenario Evaluation of
Autonomous and Connected Transport

Short Term Scientific Missions (STSM) are funded as part of the COST Action CA16222 **Wider Impacts and Scenario Evaluation of Autonomous and Connected Transport (WISE-ACT)**. This is a research network funded by COST European Cooperation in Science and Technology. The Action aims to build a European network of experienced scholars, young researchers and industry representatives working on the transition to autonomous and connected transport.

Short-Term Scientific Missions (STSM) allow scientists to conduct short research and study visits to a research institution or laboratory in another COST Country in order to strengthen the existing networks and to foster collaboration, to learn a new technique or to use instruments, data and/or methods not available in their own institution and to contribute to the scientific objectives of the Action. The COST Action CA16222 has five working groups. STSMs are considered a great opportunity for participants to focus their work on research interests that have been highlighted by WGs or introduce new ones in light of the COST Action objectives (for details visit <http://www.cost.eu/actions/CA16222>).

In this Call, the Action aims at funding one STSM with a duration of 5 days to consolidate existing WG input of the WISE-ACT Glossary and finalise Stage 2 of our WISE-ACT Glossary contributing in the relevant objective as outlined in the Action MoU. Specific STSM tasks will include:

- A review of the 130 terms currently included in the WISE-ACT Glossary
- Addition of missing definitions
- Source/Reference checking
- Translation in the participant's own language (other than English)

This STSM will be hosted by Dr Federico Costantini at the University of Udine in Italy.

Grant Period: This Call covers the grant period until 31st March 2019, so any STSM should be completed within this timeframe. This Call will fund one STSM up to a total value of EUR 1500.

Deadline: Applications should be received through e-COST as well as by e-mail until **8th March 2019**. Decisions will be announced by 11th March 2019.

Those interested in submitting an application should consult the CA16222 Action STSM Guidelines of this Call for details about eligibility, grants, criteria for evaluation of applications and how to apply.

Contacts:

STMS Coordinator: Prof. Maria Attard (stsm@wise-act.eu)

MC Chair: Dr Nikolas Thomopoulos (chair@wise-act.eu)
